

5-6 YO - Red 1 - Pre Rally Kids

Goldmine:

Form two lines at the baseline of a mini-court. Set an empty **E** hopper and a full **F** hopper on the opposite side of the net across from each team. Set two more full **F** hoppers, one behind each team at the baseline.

The empty hopper across from each team is their “goldmine.” The first players in each line come forward and drop/hit their ball over the net.

If the player makes their shot, they get to run to the far side and take 2 balls from the full hopper and put it into their empty (goldmine) hopper.

The first team to fill their goldmine wins the game.

V= Pro can disallow shots that have poor form / technique.
