

5-6 YO - Red 1 - Pre Rally Kids

Popcorn (for volleys):

Line all the kids up at the net in “high five” volley position. Teach them the open face and how to high five the ball gently. Begin tossing volleys to the players. If they make their volley, they stay standing. If they miss their volley, they bend their knees and crouch down into sitting position. Then they have to stay in this position until another kid misses their volley. When this happens, the kid who missed “pops” down and the kid who was already down “pops” up!

V=have players start moving their feet and be in the ready position while they wait for the ball
